

Bedroom 3 has a pull-down bed, allowing the room to be used as a bedroom or a living space. The room also has a lifting track and hoist to allow for flexible sleeping options.

The master bedroom and child's bedroom are divided by a moveable wall, so it can effectively become one very large room bringing peace of mind that their child is only metres away.

A hoist is designed to safely carry the child from the bedroom to the bathroom. If the hoist is not needed, it packs away neatly and other equipment, such as oxygen gas bottles, can also be hidden away in customised spaces.

This room features multi-sensory equipment to entertain and relax children of all abilities.

The outdoor deck is a spacious area allowing wheelchairs to easily navigate. It is a beautiful location for the whole family to enjoy the views of the water. Also features a large BBQ.

The Beach House features a large open living, dining and kitchen space with views across the lake and central garden.

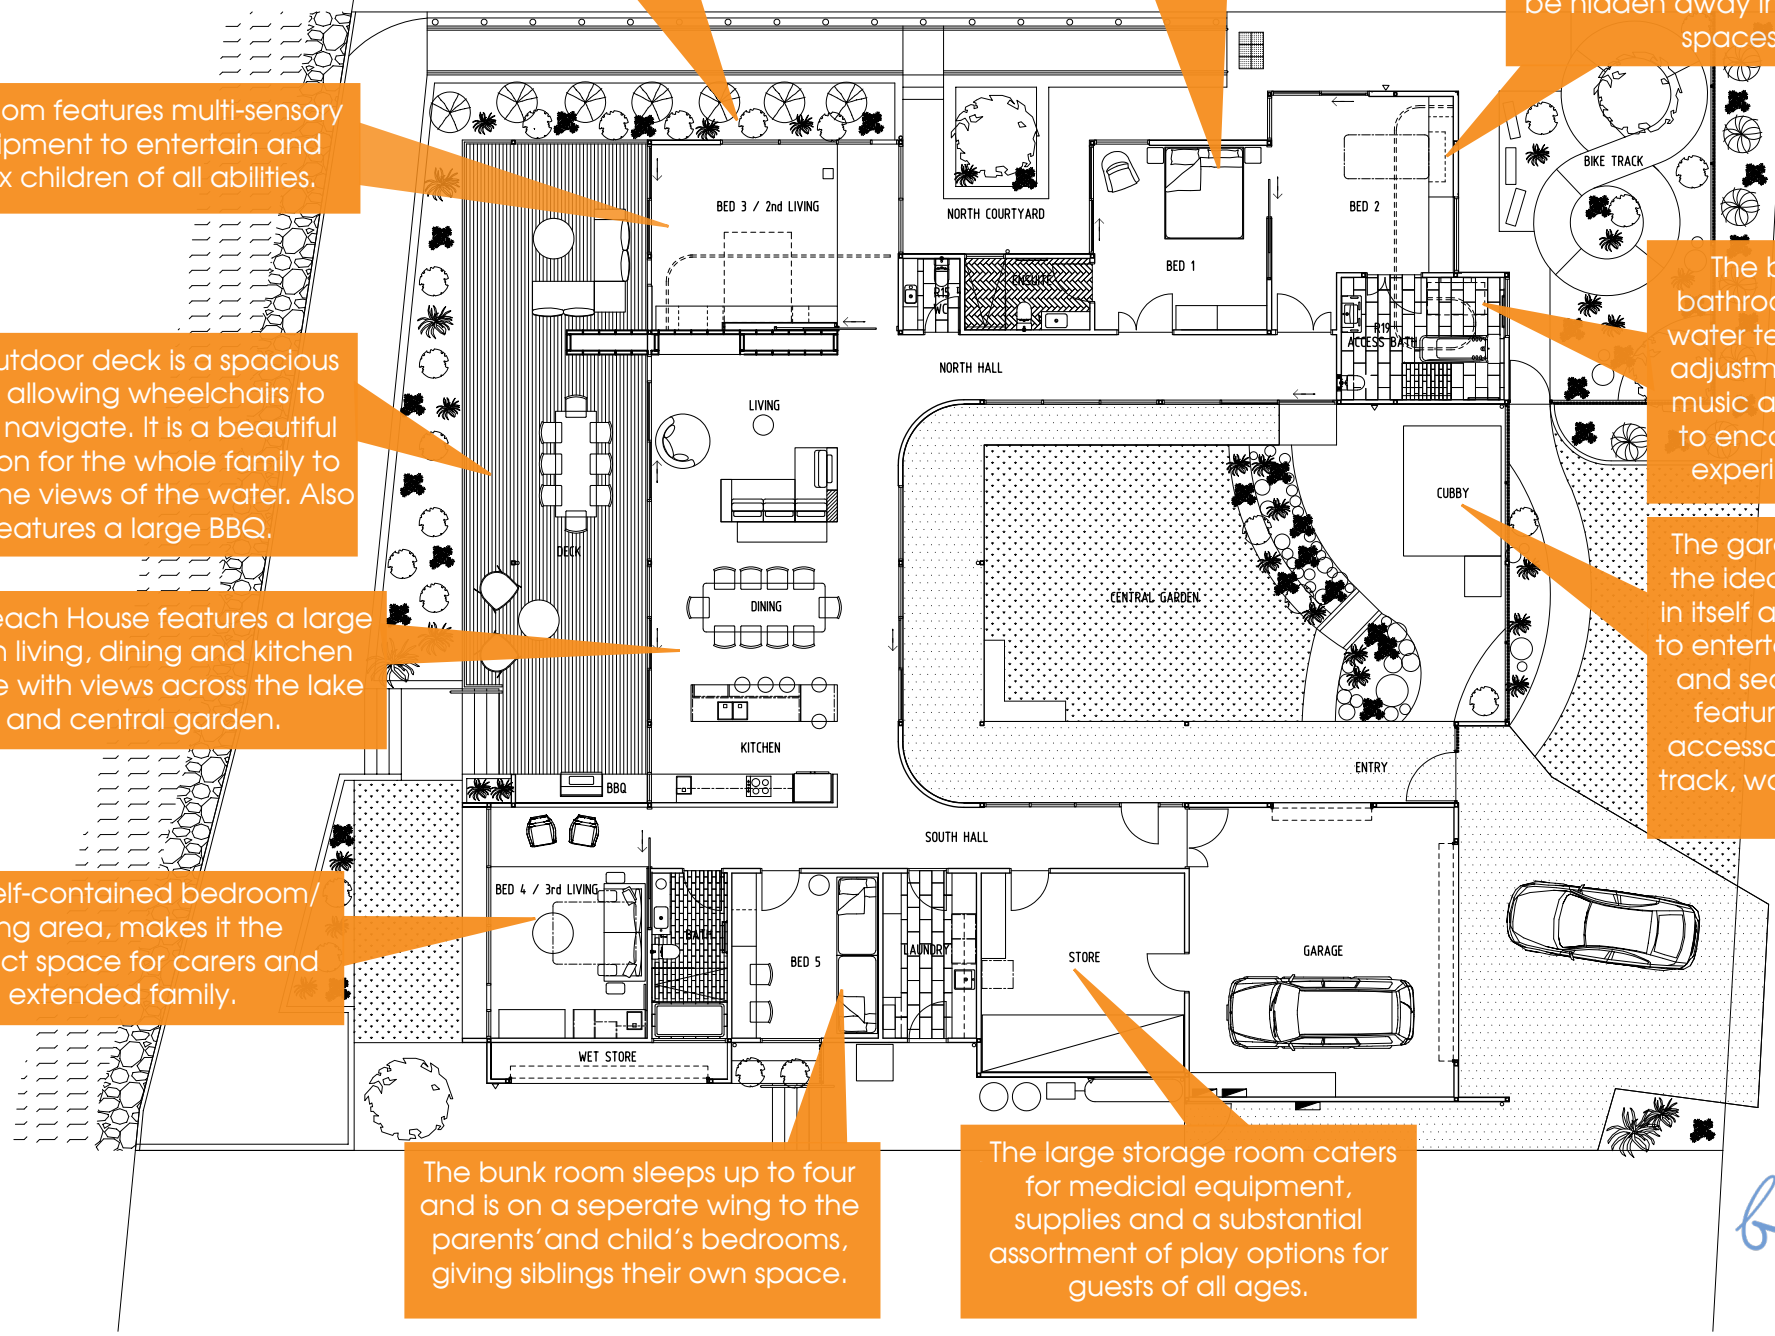

This self-contained bedroom/living area, makes it the perfect space for carers and extended family.

The bunk room sleeps up to four and is on a separate wing to the parents' and child's bedrooms, giving siblings their own space.

The large storage room caters for medical equipment, supplies and a substantial assortment of play options for guests of all ages.

The bath in the disabled bathroom features regulated water temperature and height adjustment, as well as lighting, music and various spa options to encourage a total sensory experience and relaxation.

The garden was designed with the idea that it is a destination in itself and an area for children to entertain themselves in a safe and secure area. The garden features Fleurieu plants, an accessible cubby house, bike track, water play pump and dry creek bed.
